

1. Flip your head upside down (as to create volume & position it into the direction you will be braiding) and thoroughly brush through your hair .

2. Gather three strands and begin French braiding from the nape.

3. Continue the braid all the way up to the crown.

4. Once you've reached the crown, gather the rest of the hair and fasten with an elastic.

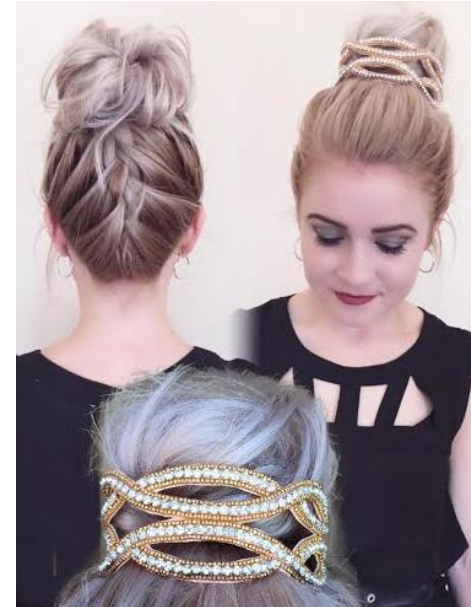

5. Using either a teasing comb or brush , tease the under side of your pony tail thoroughly.

6. Roll into a loose messy bun and fasten with bobby pins .

7. Place the headband around your bun.

8. Pull the headband around the bun pulling the elastic toward the back. Twist the elastic at the back of the bun and pull it back over the front of the bun and hide it underneath the bottom of the headband. Pull the bun around the back of the headband to hide the elastic & also to your desired messiness !
